About Us

Haala Industries, Inc. was founded in 1974 and grew its first roots servicing the metal fabrication and repair needs of the local community. It has since developed into a leading innovator and manufacturer of metal fabricated products for a variety of customers. We offer Fabricated Rebar Products, Wire Cone Cages, Flared End Cages, Trash Guards, Safety Grates, Pipe Ties, Barrier Pins, Pond Skimmers, Custom Grates and Guards, Lift Bars/Cables, and Stud Welding to name a few of the services we provide.

Haala Industries has worked closely with many Engineering Firms, State DOTs, DNRs, and Ducks Unlimited in both product development and design. We continually look for ways to improve the utilization and application of all of our products. Haala Industries strives to be competitive in the market by using the latest technology of fiber lasers, high-definition plasma cutters, high-precision press brakes with laser angle measuring, and robotic welders to provide customers with specialized products. We provide quotes on new designs and drawings provided by any customer.

We understand the importance of being committed to our industry as well as our customers. This commitment is demonstrated in our active membership and participation with the ACPA (American Concrete Pipe Association), NPCA (National Precast Concrete Association), and the World of Concrete.

Haala Industries currently employs over 60 employees and continues to develop strong business

relationships with various customers around the country.
