## Triangle Grates For Box Culverts

**Title:**

TR10265

**Part No.**

TR10265

Triangle Grates are designed to cover inlet orifices and prevent small debris from passing through. The raised and angled design helps to deflect debris and increases filter area. All grates are made from plate for a clean and smooth contact surface instead of a bi-directional bar design or expanded metal.

- Plate design for a clean appearance
- Standard 1" openings (other sizes can be made)
- Angled front plate to maximize debris deflection
- Mounting flanges on 2-4 sides depending on size
- Galvanized steel construction. Can be made from aluminum or stainless steel.
