Universal Receiver Plates

\$310.80

Title:

QTRP2

Part No.

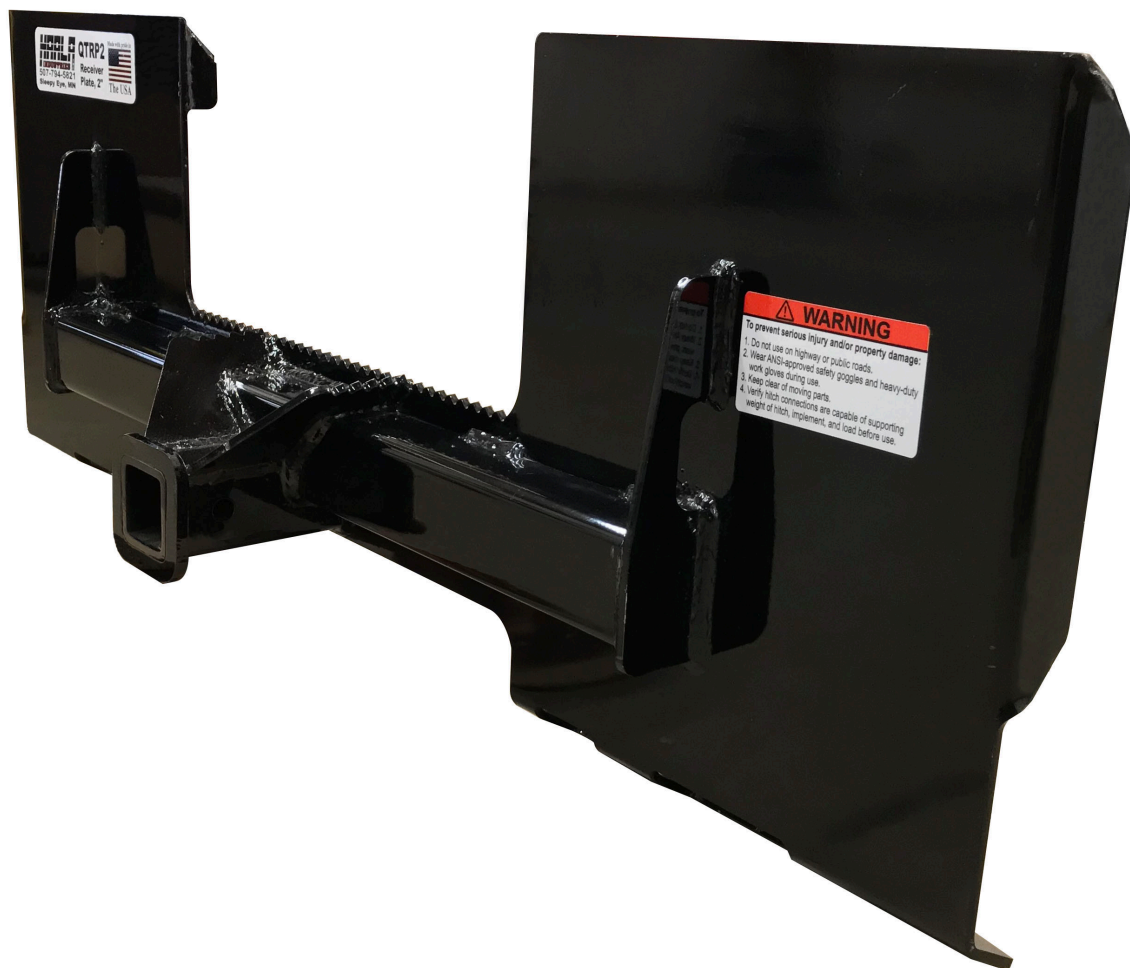

QTRP2

This receiver hitch adapter plate has a 2" receiver tube designed to fit a variety of ball mount hitches. (Ball and receiver hitch Not Included) Designed to fit skid loaders with the universal quick attach system such as: Bobcat, Case, ASV, Gehl, John Deere, New Holland, Caterpillar and more!

This unit is cut with a CNC high definition plasma table for ultimate precision. With side braces to support the receiver tube the attachment has extra durability and strength. The side braces also contain a chain hole for hooking up chains to the plate.

Using the receiver plate you can hook up a trailer to pull or push it around the yard. Simply change out the hitch depending on what type of trailer or equipment that you are moving. With this new Universal Receiver Plate, you can increase your machine's versatility!

- Made in the USA with domestic material. Welded by AWS D1.1 certified welders.
- Fits all skid steers and compact tractors with the skid steer universal quick attach system.
- Adapts skid loader to use a 2" standard receiver hitch.
- Meets class V receiver hitch tongue weight capacity.
- 1/4" Steel Plate with 3/8" Top Bar.
- Black powder coat finish.
